Kenta Young

Senior Software Engineer | Frontend Engineering & Ecommerce

303-249-0977 | Kenta@KentaYoung.dev | KentaYoung.dev | Homedale, ID | Remote

PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience building enterprise web applications and ecommerce platforms. Strong background in JavaScript, frontend architecture, React, Vue, and scalable user interfaces. Led technical delivery and guided developers at The Beyond Group, partnering with clients and cross-functional teams to ship maintainable solutions.

TECHNICAL SKILLS

- Frontend: JavaScript, HTML, CSS/SCSS, React, Vue, AngularJS, Tailwind CSS; working knowledge of TypeScript
- Engineering: Frontend architecture, component development, Git, GitHub Actions, CI/CD, Vite, npm, API integrations
- **Shopify & Ecommerce:** Shopify Plus, Online Store 2.0, Liquid, metafields, metaobjects, Shopify Flow, Checkout UI Extensions, Recharge
- **Integrations & Analytics:** GA4, Segment, Littledata, HubSpot, Klaviyo, Gorgias, Intelligems

WORK EXPERIENCE

Software Engineer / Senior Software Engineer | The Beyond Group | Remote
2022 – 2026

- Owned frontend architecture, implementation decisions, and production delivery across multiple Shopify client storefronts.
- Led technical execution for two developers, coordinating implementation plans, reviewing code, mentoring peers, and prioritizing work across client projects.
- Built custom Shopify Plus and Online Store 2.0 experiences using Liquid, JavaScript, Vue, Tailwind CSS, metafields, and reusable components.
- Delivered a subscription catalog consolidation into variant-based products and Recharge selling plans, updating product pages, quick-add, cart, and upsell workflows.
- Integrated and debugged Segment, GA4/Littledata, and HubSpot data flows, validating ecommerce events and customer/order mappings.
- Helped modernize legacy Gulp build workflows with Vite and improved storefront development practices through GitHub and CI/CD.

Independent Projects & Freelance Development | Self-Employed | Remote
2020 – Present

- Built a React and Firebase membership application with a member portal, member-generated posts, and PayPal dues payments.
- Designed and delivered WordPress sites based on client requirements and stakeholder feedback.

Software Engineer | ChamberDS | Long Beach, CA / Remote
2020 – 2022

- Developed client-facing prototypes and web applications, translating product concepts into functional experiences.
- Assessed platform constraints, technical dependencies, and implementation risks to recommend practical solutions.

Software Engineer | Level 3 Communications / CenturyLink | Broomfield, CO
2014 – 2020

- Developed and supported Media Portal, an enterprise customer-facing CDN management portal.
- Reworked Sass/SCSS architecture to support rebranding and consistent styling across the application.
- Built an AngularJS/UI-Grid hierarchical dropdown supporting 10,000+ entities and nested child records.
- Collaborated with engineers, product owners, and Scrum teams to deliver roadmap features and support production releases.

EDUCATION

Regis University | Bachelor of Science in Computer Science, Minor in Visual Arts | 2014
